PROFESSIONAL SUMMARY

BCA Graduate and Full Stack Developer with hands-on experience building responsive web applications, database-driven systems, business software and AI-powered tools. Skilled in PHP, Python, JavaScript, React.js, Next.js, Node.js, MySQL, Supabase and REST APIs, with practical experience developing complete application workflows from frontend interfaces to backend services and data management. Seeking an entry-level or junior software development opportunity to contribute to real-world products.

TECHNICAL SKILLS

Programming Languages: PHP, Python, JavaScript

Web Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS

Backend & APIs: Node.js, REST APIs

Application Development: Kivy

Databases: MySQL, SQLite, Supabase

Tools & Platforms: Git, GitHub, VS Code, XAMPP

Cloud & Integrations: Google Drive API

PROJECTS

Craftzon - B2B E-Commerce Platform

PHP, JavaScript, MySQL, Tailwind CSS | craftzon.in

- Developed a full-stack B2B e-commerce platform from scratch to handle product listings, shopping carts, and vendor workflows.
- Built an administrative dashboard for inventory management, order tracking, and dynamic product variant configurations.
- Implemented secure user authentication, managed relational database architecture, and designed responsive UI components.

Shakti POS & Inventory Management System

Python, Kivy, SQLite, Supabase

- Developed a Desktop Point of Sale (POS) and Inventory Management application focused on business reliability and offline-first performance.
- Engineered a hybrid database architecture utilizing local SQLite to enable offline CRUD operations during internet outages.
- Integrated Supabase for background cloud synchronization and automated data backup.

Teacher Learning Platform / Educational Portal

Next.js, Supabase, Google Drive API

- Built an educational web portal designed to streamline resource sharing and communication between educators and students.
- Integrated the Google Drive API to allow teachers to securely upload, manage, and distribute course PDFs and video links within the application.
- Designed dynamic student dashboards to support individual learning progress tracking using Supabase authentication.

AI PDF Translator & Document Processing Application

Next.js, Python, AI APIs

- Developed a utility web application to automate the translation, summarization, and editing of complex PDF documents.
- Engineered rendering solutions to preserve original document layouts and formatting during multi-language translation workflows.

EDUCATION

Bachelor of Computer Applications (BCA)

2026

Kamani Science College, Saurashtra University

- Score: 79.82%

Higher Secondary Certificate (HSC) - 12th Grade

2023

GSEB (Gujarat Secondary and Higher Secondary Education Board)

- Score: 96.34 Percentile

CERTIFICATIONS

Cybersecurity Analyst Job Simulation

Forage (TATA)

GenAI Job Simulation

Forage (BCG X)

Career Essentials in Generative AI

Microsoft and LinkedIn

Data Science Job Simulation

Forage (BCG X)

Introduction to Generative AI Studio

Google Cloud / Simplilearn

ACHIEVEMENTS

- Completed 25+ certifications and job simulations across technology, generative AI, cybersecurity, data and professional development.
- Achieved 96.34 percentile in HSC board examinations.
